

Description of Additional Supplementary Files

File name- Supplementary data 1

File description- Source data for Figure 4 - AUC performance metrics across models and datasets

File name- Supplementary data 2

File description- Source data for Figure 5 - ROC curves for model discrimination capabilities

File name- Supplementary data 3

File description- Source data for Figure 6 - AUC values with 95% confidence intervals

File name- Supplementary data 4

File description- Source data for Figure 7 - Statistical effect size comparisons between model pairs

File name- Supplementary data 5

File description- Source data for Figure 8 - Model consistency and robustness metrics
