Where are we?

- Participant's Home
  - Is it after 1900?
    - Yes
      - They will continue to do whatever they said they will doing for a few more minutes, and around 1903, they will hear ambulance sirens in the background.
        - End
    - No
      - Explore the environment
        - Share information about the home that they are reasonably likely to be able to learn through exploration.
          - Go to start
      - Take actions within the home
        - Allow them to take actions they are reasonably likely to be able to perform.
          - Go to start
      - Interact with their Robot
        - Their will answer questions and accept reasonable requests.
          - Go to start
      - Go outside
        - They go to the door, their robot says goodbye, and the door opens and closes behind then.
          - Go to start
- Rose's Home
  - Is it before 1905 OR they've learned Pepper can't connect to the internet?
    - Yes
      - Has it been 10 minutes since they called the ambulance?
        - Yes
          - The ambulance will arrive, and they will be escorted from the home.
            - End
        - No
          - Have they gone to Rose?
            - Yes
              - Have they called an ambulance?
                - Yes
                  - Have they sat with Rose
                    - Yes
                      - Have they interacted with Pepper?
                        - Yes
                          - The participant will sit with Rose until the ambulance arrives, then they will be escorted from the home.
                            - End
                        - No
                          - The participant will sit with Rose until the ambulance arrives. During this time, Pepper will initiate a conversation asking for help connecting to the internet. When the ambulance arrives, they will be escorted from the home.
                            - End
                    - No
                      - Explore the environment
                        - Share information about the home that they are reasonably likely to be able to learn through exploration.
                          - Go to start
                      - Take actions within the home
                        - Allow them to take actions they are reasonably likely to be able to perform.
                          - Go to start
                      - Interact with Pepper
                        - Does this require communication outside the home?
                          - Yes
                            - Pepper will answer questions and accept reasonable requests.
                              - Go to start
                          - No
                            - Pepper will not be able to do anything because it cannot connect to the internet.
                              - Go to start
                      - Sit with Rose
                        - Have they interacted with Pepper?
                          - Yes
                            - The participant will sit with Rose until the ambulance arrives, then they will be escorted from the home.
                              - End
                          - No
                            - The participant will sit with Rose until the ambulance arrives. During this time, Pepper will initiate a conversation asking for help connecting to the internet. When the ambulance arrives, they will be escorted from the home.
                              - End
                  - No
                    - Explore the environment
                      - Share information about the home that they are reasonably likely to be able to learn through exploration.
                        - Go to start
                    - Take actions within the home
                      - Allow them to take actions they are reasonably likely to be able to perform.
                        - Go to start
                    - Interact with Pepper
                      - Does this require communication outside the home?
                        - Yes
                          - Pepper will answer questions and accept reasonable requests.
                            - Go to start
                        - No
                          - Pepper will not be able to do anything because it cannot connect to the internet.
                            - Go to start
                    - Go to Rose
                      - Rose is unconscious, in a heap on the floor, and breathing shallowly.
                        - Go to start
                      - Is the person a medical professional?
                        - Yes
                          - Rose is unconscious and breathing shallowly. Her pulse is weak. There are no broken bones.
                            - Go to start
                        - No
                          - Rose is unconscious, in a heap on the floor, and breathing shallowly.
                            - Go to start
                    - Call ambulance
                      - The dispatcher asks for event and location information and says that someone will be on the scene in 10 minutes.
                        - Go to start
                - No
                  - Explore the environment
                    - Share information about the home that they are reasonably likely to be able to learn through exploration.

                  - Take actions within the home
                    - Allow them to take actions they are reasonably likely to be able to perform.
                      - Go to start
                  - Interact with Pepper
                    - Does this require communication outside the home?
                      - Yes
                        - Pepper will answer questions and accept reasonable requests.
                          - Go to start
                      - No
                        - Pepper will not be able to do anything because it cannot connect to the internet.
                          - Go to start
                  - Sit with Rose
                    - Have they interacted with Pepper?
                      - Yes
                        - The participant will sit with Rose for a few minutes while the light begins to fade.
                          - Sit with Rose
                            - The participant will sit with Rose. As the light fades outside, Rose's breathing will slow. The street lights outside come on, and the participant will hear footsteps outside. There is a knock at the door, then a pause, and the door unlocks and opens. The property manager sees Rose on the floor, rushes over, and calls an ambulance. A few minutes later, the participant hears sirens. They stop outside, EMTs rush in, and escort the participant outside.
                              - End
                          - Get up
                            - Go to start
                      - No
                        - The participant will sit with Rose. After a few minutes, Pepper will initiate a conversation asking for help connecting to the internet.
                          - Sit with Rose
                            - The participant will sit with Rose. As the light fades outside, Rose's breathing will slow. The street lights outside come on, and the participant will hear footsteps outside. There is a knock at the door, then a pause, and the door unlocks and opens. The property manager sees Rose on the floor, rushes over, and calls an ambulance. A few minutes later, the participant hears sirens. They stop outside, EMTs rush in, and escort the participant outside.
                              - End
                          - Get up
                            - Go to start
                  - Call ambulance
                    - The dispatcher asks for event and location information and says that someone will be on the scene in 10 minutes.
                      - Go to start
                  - Explore the environment

                    - Does this require communication outside the home?
                      - Yes
                        - Pepper will answer questions and accept reasonable requests.
                          - Go to start
                      - No
                        - Pepper will not be able to do anything because it cannot connect to the internet.
                          - Go to start
                  - Go to Rose
                    - Is the person a medical professional?
                      - Yes
                        - Rose is unconscious and breathing shallowly. Her pulse is weak. There are no broken bones.
                          - Go to start
                      - No
                        - Rose is unconscious, in a heap on the floor, and breathing shallowly.
                          - Go to start
                  - Call ambulance
                    - The dispatcher asks for event and location information and says that someone will be on the scene in 10 minutes.
                      - Go to start
            - No
              - Pepper will initiate a conversation asking for help connecting to the internet.
                - Go to start
    - No
      - Pepper will initiate a conversation asking for help connecting to the internet.
        - Go to start
- Outside
  - Is it after 1903?
    - No
      - Go to Rose's
        - They walk to Rose's. When they arrive, they knock on the door. Rose doesn't answer, but they've visited before, so the door will open if they put their hand on the entry pad.
          - Knock
            - Rose does not answer. The participant begins to worry. Rose is never late and wouldn't miss Bingo for anything - she's always the most excited. Besides, these smart homes notify people inside when a visitor knocks on the door. Something must be wrong.
              - Put hand on entry pad
                - They open the door, see Pepper in the kitchen and Rose in a heap on the floor next to it.
                  - Go to start
              - Go home
                - They will return home. A few minutes later, around 1903, they will hear ambulance sirens in the background.
                  - End
              - Explore the environment
                - Share information about the outside environment that they are reasonably likely to be able to learn through exploration.
                  - Go to start
              - Take actions outside
                - Allow them to take actions they are reasonably likely to be able to perform.
                  - Go to start
          - Put hand on entry pad
            - They open the door, see Pepper in the kitchen and Rose in a heap on the floor next to it.
              - Go to start
      - Go home
        - They will return home. A few minutes later, around 1903, they will hear ambulance sirens in the background.
          - End
      - Explore the environment
        - Share information about the outside environment that they are reasonably likely to be able to learn through exploration.
          - Go to start
      - Take actions outside
        - Allow them to take actions they are reasonably likely to be able to perform.
          - Go to start
    - Yes
      - They will hear ambulance sirens and the scenario will end.
        - End
