The authors regret that the structure of khasuanine A(**1**) presented in this article was misassigned. The NMR data presented for khasuanine A were found to correspond to those obtained by Lounasmaa¹ for (*E*)-akuammidine ([Figure 1](#)); accordingly, the material we obtained from *Melodinus khasianus* should be assigned to this alkaloid. The authors apologise for any inconvenience caused.

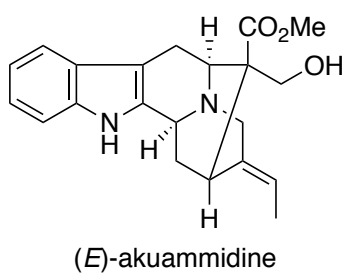

Figure 1 The structure of (*E*)-akuammidine
