

Description of Additional Supplementary Files

File Name: Supplementary Movie 1

Description: Representative time-lapse video microscopy showing interaction between CAFs and CD4⁺CD25⁺GITR⁺Vα2⁺Vβ5.1⁺ Tregs sorted from OTII mice, in the presence of OVA₃₂₃₋₃₃₉. Related to Figure 3. 4fps, scale bar: 100 pixels.

File Name: Supplementary Movie 2

Description: Representative time-lapse video microscopy showing interaction between CAFs and CD4⁺CD25⁺GITR⁺Vα2⁺Vβ5.1⁺ Tregs sorted from OTII mice, in the absence of OVA₃₂₃₋₃₃₉ (vehicle). Related to Figure 3. 4fps, scale bar: 100 pixels.

File Name: Supplementary Movie 3

Description: Representative video from 3D fluorescent confocal microscopic imaging, showing interaction between CAFs and CD4⁺CD25⁺GITR⁺Vα2⁺Vβ5.1⁺ Tregs sorted from OTII mice, in the presence of OVA₃₂₃₋₃₃₉. Cells were stained for actin, TCR and PD-1, interactions are observed on filopodia extending from α-SMA⁺ CAFs. Related to Figure 3. 30fps, scale bar: 1 μm.
