

**POST-ROMAN BRITAIN TO ANGLO-SAXON ENGLAND:
THE BURIAL EVIDENCE REVIEWED.**

ELIZABETH O'BRIEN

Corpus Christi College.

VOLUME II : DATABASE

THESIS SUBMITTED TO THE UNIVERSITY OF OXFORD
FOR THE DEGREE OF DOCTOR OF PHILOSOPHY.

April, 1996

STRUCTURE AND CONTENT OF DATABASE.

This database is not an end in itself, but is rather a tool for storing, sorting and presenting the archaeological data necessary for the resolution of this thesis.

The programme used is dBase IV. 1.5. and the information is held on two files:

File 1: DBASE\DATA\GAZ_CEM.DBF contains records pertaining to geographical location of cemeteries and details of burials within each. This file is based on a model set up with the generous assistance of Mr Andrew Boddington who supplied gazetteer reference numbers, national grid references, and site location for 1226 records current up to the year 1984. This file now contains 1433 records current up to 1996, and each record has been expanded to encompass 33 fields.

File 2: DBASE\DATA\FEAT_GAZ.DBF is an extension of File 1 linked by gazetteer numbers, expanded to include a further 23 fields, thereby providing a total of 56 available fields for each entry.

All entries are provided with brief references which concur with complete references in the bibliography in volume I. Acknowledgements for unpublished information also appear at appropriate points throughout the thesis text.

Records for some, especially older, cemetery excavations, which were little more than treasure-hunting and insufficiently recorded, have been included in the database for information only. However, they could prove useful as a record when checking for any previous history for newly-discovered sites, and they provide some information for distribution maps.

Each site record has an unique 'gazetteer' number, which also provides the link

between files 1 and 2. These are based on A. Boddington's numbers 1-1255, and have been continued by me starting with No. 2001. Gaps in the numbering system have been caused by the deletion by me of unusable records; this explains why the number of original records has been reduced from 1255 to 1226, but this does not affect the efficiency of the system. For ease of identification the gazetteer number is appended within brackets after each site-name in the text of the thesis.

The large quantity of material in the computer database has made it impractical to print out the full contents, so that the print-out of data in this volume consists of selected fields, each of which is marked with an asterix on the full structures for the files which appear below.

Key to structure of file 1. GAZ_CEM.DBF.

<u>Field</u>	<u>Heading</u>	<u>Explanation</u>
1*	GAZETTEER	Identity number for site record
2*	GRID_REF	National Grid reference
3	DIGI_GRID	Digitized N.G.R.
4*	NAME MAJOR	Geographical name for site
5*	NAME MINOR	Local name for site
6*	COUNTY_OLD	County prior to 1974
7*	COUNTY_NEW	County subsequent to 1974
8	PROVINCE	England, Scotland, Wales etc.
9	DATE	Approximate era
10	LAYOUT	Short description of burial/cemetery
11	ENCLOSED	Enclosure around cemetery
12*	INHUM	Inhumations + numbers if known
13	ADL_NUM	Adults + numbers if known
14	MALE	Identifiable males + numbers if known
15	FEMALE	Identifiable females + numbers if known
16	UNIDENT	Unidentifiable burials + numbers if known
17	CHILD	Identifiable children + numbers if known
18*	MULTIP	Multiple burial(s) (within one grave)
19*	CREM	Cremation(s) + numbers if known
20*	ORIENT	Orientation of bodies
21*	EXTEND	Extended burial(s) + numbers if known
22*	CROUCH	Crouched or flexed burial(s) + numbers if known
23*	PRONE	Prone burial(s) + numbers if known
24*	DECAPS	Decapitate burial(s) + numbers if known
25	BURNT_GRN	Burnt grain or charcoal fragments associated with burial(s)
26	BUILDINGS	Building(s) directly associated with cemetery
27*	W_OUT_OBJS	Burial(s) without grave goods + numbers if known
28*	BKL_ONLY	Burial(s) with only a buckle + numbers if known
29*	KNF_ONLY	Burial(s) with only a knife + numbers if known
30*	BKL_KNF	Burial(s) with buckle and knife only + numbers if known
31*	PRE_HIS_FT	Burials secondary in prehistoric feature
32	DESCRIPT	Memo field containing published and unpublished details, and personal observations of cemeteries and burials,
33*	REFS.	Short bibliographical references and gazetteer cross-references.

Key to field content

No. 1. Gazetteer: = Identity number of site: No. 9. Date: AD = Anglo-Saxon; B = British; CAS = Christian Anglo-Saxon; EC = Early Christian; FP = Final Phase; IA = Iron Age; LR = Late Roman; M = Medieval; PAS = Pagan Anglo-Saxon; PH = Prehistoric; PR = Post-Roman; R = Romano-British. No. 20. Orient: n/s = head north; s/n = head south; e/w = head east; w=e = head west. No. 22. Crouch: cr = crouched; fl = flexed. All other fields: a = absent; c = certain; pos = possible; unr = unrecorded; blank field = no information available.

Key to structure of file 2. FEAT_GAZ.DBF.

<u>Field</u>	<u>Heading</u>	<u>Explanation</u>
1	GAZETTEER	Identity number for site record
2	C14	Radiocarbon dating present
3*	SL_LN	Slab or stone lined grave(s) + numbers if known
4*	PL_LN	Wooden plank lined grave(s) + numbers if known
5*	UNPROT	Unprotected dug grave(s) + numbers if known
6*	BAR	Primary barrow(s) + numbers if known
7*	COF	Coffined burial(s) + numbers if known
8	BIER	Wooden boards beneath burial(s) + numbers if known
9	COV	Wooden boards above burial(s) + numbers if known
10*	CHAMB	Chamber grave
11*	PEN_D	Penannular enclosures around burial(s)
12*	ANN_D	Annular enclosures around burial(s)
13*	RECT_D	Rectilinear enclosures around burial(s)
14*	GR_STR	Evidence for grave structures
15	KR_SLT	Kerb slots around grave(s)
16	P_H	Post holes associated with grave(s)
17	IN_LDG	Internal ledges within grave(s)
18	GR_MKR	Grave marker(s)
19	SK_LDG	Graves with sockets and ledges
20	UNUS_FT	Unusual features within cemetery
21	ER_MF	Burials with stones either side of skull
22*	SP_GR	Special or primary grave within cemetery
23	COMMENT	Memo field containing additional information.

Key to field content

Codes for all fields: a = absent; c = certain; pos = possible; unr = unrecorded;
blank field = no information available.
