

APPENDIX MATERIAL

Dihydroartemisinin-piperaquine resistance in *Plasmodium falciparum* malaria in Cambodia: a multi-site prospective observational cohort study

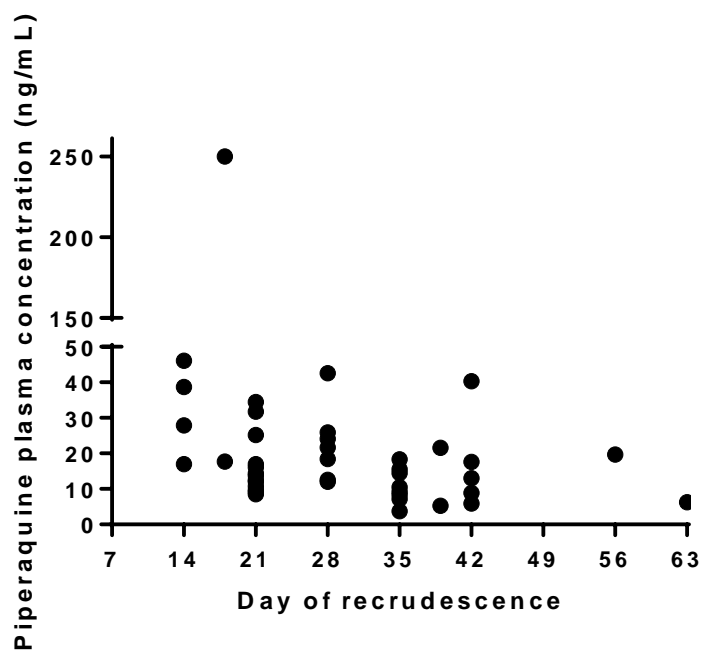

Chanaki Amaratunga PhD, Pharath Lim MD PhD, Seila Suon MD, Sokunthea Sreng, Sivanna Mao MD, Chantha Sopha MD, Baramsey Sam MD, Dalin Dek BA, Vorleak Try BA, Roberto Amato PhD, Daniel Blessborn PhD, Lijiang Song PhD, Gregory S Tullo BS, Michael P Fay PhD, Jennifer M Anderson PhD, Joel Tarning PhD, Rick M Fairhurst MD PhD

Contents

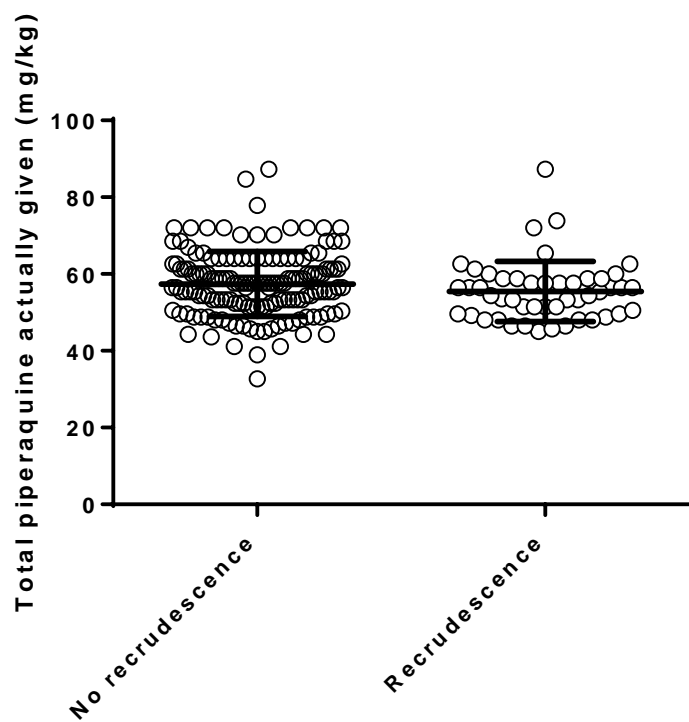

Page 1: Correlation between piperaquine plasma concentration and day of recrudescence.

Page 2: Total piperaquine actually given according to recrudescence status.

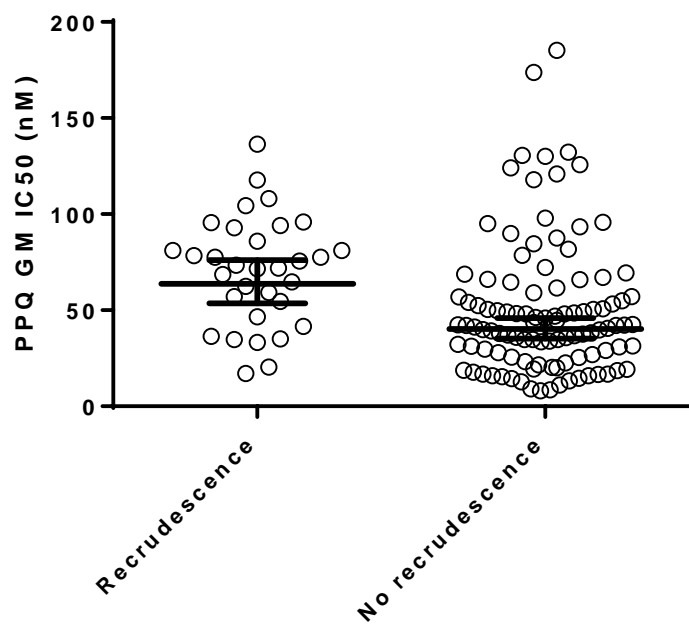

Page 3: Piperaquine IC₅₀ values according to recrudescence status.

Correlation between piperaquine plasma concentration and day of recrudescence.

Total piperazine actually given according to recrudescence status. Mean \pm SD are shown.

Piperaquine IC_{50} values according to recrudescence status. Geometric mean and 95%CI are shown.
