

Supplementary Table S4. Comparison of AI model performance metrics.

Parameters	Algorithms					
	SVM	kNN	RF	SVM+kNN	SVM+RF	kNN+RF
Accuracy (%)	81	69	65	77	81	69
Sensitivity (%)	33	50	50	67	33	50
Specificity (%)	95	75	70	80	95	75

The table shows the performance metrics (accuracy, sensitivity and specificity) for individual machine learning models (SVM, RF and kNN) and their combinations (SVM+kNN, SVM+RF, kNN+RF). kNN, k-Nearest neighbors; RF, Random forest; SVM, Support vector machine.
